Special Kills:

- I was a gaffer for 6 years before switching to Cinematography on over 20 features and 100 music videos and Commercials. My reputation was as a creative gaffer. I was who you called in when your DP wasn’t comfortable making the lighting plans to achieve the pre-vis of the director.
-
- Spent my first years in LA as a VFX Supervisors Assistant working on big music videos like Ariana Grande’s Break Free. The takeaway is I understand what's needed for VFX from camera. .
-
- I’m also an analog stills photographer. I just recently did a cover photo for Apple Music for one of their DJs Venessa Michaels.
